EDUCATION

BACHELOR OF SCIENCE, MAJOR IN COMPUTER SCIENCE

TOURO COLLEGE
GRAD: JANUARY 2021
GPA: 3.9

SKILLS

- React
- HTML/CSS
- JavaScript
- TypeScript
- Angular
- Git/GitHub
- Figma
- Java
- Python
- C
- SQL
- Ruby on Rails
- Arduino
- Adobe Animate CC

EXPERIENCE

SOFTWARE DEVELOPMENT INTERN
INDICATIVE | SEPT 2020 - JAN 2021

- Frequently pushed bugfixes and implemented new features across the application using Typescript, React, and Angular.
- Worked closely with software and marketing teams to develop a new time zone parameter now used in all of Indicative's data analytic tools.
- Met regularly with the small software development team to discuss progress and roadblocks.

FULL STACK WEB DEVELOPMENT INTERN
THE ROTATION | MAR 2020 - AUG 2020

- Developed user-friendly features in React and Ruby on Rails, including Netflix-style next package queue, catalog search, and shipping workflow tools for operations employees.
- Collaborated with CTO and Design Lead to architect features that fit in with the product and tech ecosystem in a modular and extensible way.
- Followed dev ops processes of reviewing, testing, promoting code through the various development environments to quickly yet safely deploy new features to production.

TEACHERS ASSISTANT
GIRLS WHO CODE | SUMMER 2019

- Co-facilitated lessons on basic engineering and coding concepts, such as reading analog sensors and creating conditional loops, to middle school students.
- Guided and supported students on unique wearable technology projects.
- Collaborated with head teacher on daily lessons and classroom culture.
